AUSTRALIA GENERAL SKILLED MIGRATION

The Skilled Migration Program offers applicants the opportunity to gain residency in Australia by seeking employment in the country. Applicants are assessed based on factors like age, education, work experience, English proficiency and occupation demand. Successful applicants can enjoy the many benefits that come with residency in Australia while fostering a diverse and dynamic workforce in Australia.

PROGRAM OVERVIEW

Processing time is 9 months.

Applicants can sponsor family members for permanent residency.

Australia ranks among nations paying a very high level of salary for skilled professionals.

Right to live anywhere in Australia and work in their field.

Residents are eligible for citizenship after four years of residency with a minimum of 1 year as a permanent resident.

Travel visa-free to 185 countries and territories after obtaining citizenship.

Access to healthcare (medicare), social security and education.

The Skilled Worker Visa is an opportunity for skilled individuals and their families to permanently reside in Australia. Applicants can apply for visas based on their skills, work experience, age and language ability. Australia provides a skilled occupation list which determines the occupations in which there are skill shortages in the country.

Under the general skilled worker program, you are not required to have a job offer, but must show that your job fits into one of the categories on the Skilled Occupation List and pass a skills assessment which proves you are able to work in the chosen field.

SKILLED OCCUPATIONS LIST

While there are a number of occupations on the various lists that qualify, currently, the following occupations are in high demand:

- **Healthcare professionals**, including nurses, doctors, and medical specialists, as Australia strives to meet its healthcare needs.
- **Information technology** experts such as software engineers, cybersecurity specialists, and data scientists to support the country's digital transformation.
- **Tradespeople** like electricians, plumbers, and construction managers to address infrastructure and housing requirements.
- **Engineers** across various disciplines including civil, mechanical, and electrical engineers to drive innovation and development.
- **Teachers and educators** at all levels to meet the demands of Australia's education system.

PLEASE NOTE:

Because there are a variety of occupation lists and the demand for skilled workers is constantly changing, we recommend working with your Elevay Senior Consultant to determine if your occupation qualifies.
